

Customer Fact Sheet

Improve the energy efficiency of your home. SWEPCO has a variety of financial incentives for equipment, products, and services to help our Arkansas customers save energy and money. Improving your home's energy efficiency can reduce energy costs and make your home more comfortable year-round. *With SWEPCO being energy smart is easy.*

Qualifying Upgrades & Services

From insulation and duct sealing to an AC tune-up or comprehensive home audit, SWEPCO has an energy efficiency solution to meet your needs. A complete list of energy efficiency upgrades and incentives is available at SWEPCOgridSMART.com.

Participation is Easy

Follow these simple steps to improved comfort and energy savings.

Step 1: Reserve Your Incentive*

- Reserve your incentive to ensure funding is available. Incentives may be reserved online at SWEPCOgridSMART.com.
- Select a participating contractor from SWEPCO's Contractor Network.

Step 2: Install Qualified Equipment, Product, or Perform Services

- Your selected contractor will install your new energy-efficient equipment, product, or perform the qualified service.

Step 3: Submit Paperwork

- Your selected contractor will submit the required paperwork to SWEPCO for review and verification that the upgrade meets SWEPCO's requirements.

Step 4: Receive Incentive Check

- Incentive checks will be mailed within 6-8 weeks of project paperwork submission.

Reserve your incentive and find a list of participating contractors at SWEPCOgridSMART.com

Customer Eligibility

- Incentives are available to any residential dwelling served by a SWEPCO electric meter. Homes must be separately metered.
- Tenant-occupied dwellings are eligible. Tenant must obtain the property owner's approval via a signature on the Project Completion Form to receive an incentive.
- Manufactured and mobile homes for which mobility devices have been removed are eligible.
